How to make an Advanced Google Search with Kermit!

Don't you ever just want to forget about that research paper you still owe?

Well now, the burden has been cut down with a little help from the Advanced Google Search!

Start by opening up your Google browser and clicking the Settings option...

Once in the Advanced Search you can...

language: any language
Slovenian
Spanish

Pick a Language
Select a specific site/domain,

Find pages with...
all these words: tea
this exact word or phrase: green
any of these words: iced

Narrow Your Word Search

Your advanced searches may be used for so much more than just research papers if you know what I mean...

but that's none of my business.
